## Evolution, Creationism, and Intelligent Design (Historical Guides to Controversial Issues in America)

Allene S. Phy-Olsen

This work of historical exploration examines America's conflicts as it has attempted to maintain its founding principles of freedom of thought and separation of church and state, while nevertheless remaining the most traditionally religious of modern nations.

- An overview chapter offering a detailed historical account of the debate between science and religion
- An annotated section entitled "Personalities," introducing readers to the most lively and significant personalities involved in this debate
- A fully annotated bibliography listing the most valuable and readily available resources for students researching the topic
