The Immortalists David M. Friedman

His historic career as an aviator made Charles Lindbergh one of the most famous men of the twentieth century, the subject of best-selling biographies and a hit movie, as well as the inspiration for a dance step—the Lindy Hop—that he himself was too shy to try. But for all the attention lavished on Lindbergh, one story has remained untold until now: his macabre scientific collaboration with Dr. Alexis Carrel. This oddest of couples—one a brilliant Nobel Prize-winning surgeon turned social engineer, the other a failed dirt farmer turned hero of the skies—joined forces in 1930 driven by a shared and secret dream: to conquer death and attain immortality.

Part *Frankenstein*, part *The Professor and the Madman*, and all true, *The Immortalists* is the remarkable story of how two men of prodigious achievement and equally large character flaws challenged nature's oldest rule, with consequences—personal, professional, and political—that neither man anticipated.
