Occultism in a Global Perspective (Approaches to New Religions)

Occultism in a Global Perspective (Approaches to New Religions)

The study of the ideas and practices associated with occultism is a rapidly growing branch of contemporary scholarship. However, most research has focused on English and French speaking areas and has not addressed the wider spread and significance of occultism. *Occultism in a Global Perspective* presents a broad international overview. Essays range across the German magical order of the Fraternitas Saturni, esoteric Satanism in Denmark, sexual magic in Colombia and the reception of occultism in modern Turkey, India and the former Yugoslavia. As any other form of cultural practice, the occult is not isolated from its social, discursive, religious, and political environment. By studying occultism in its global context, the book offers insights into the reciprocal relationships that colour and shape regional occultism.
