Herbal Medicinals: A Clinician's Guide Lucinda Miller

The use of alternative medicines, including herbal medicine and nutritional supplements, is on the rise. The usage of such alternative medications is usually in conjunction with conventional medicine. Now, with Herbal Medicinals as your guide, you can gain an understanding of herbal remedies and how they interact, favorably or unfavorably, with conventional medicines. This new understanding will allow you to give your patients proven advice that keeps them safe while they strive for improved health. The case-based approach in Herbal Medicinals leads you through clinical considerations within the disease state of specific conditions and shows when to address your patients concerning the use or potential use of alternative medicines. You'll find this approach provides an unprecedented combination of clinicians and basic scientists integrating their knowledge for the betterment of patient care. Specifically, you'll learn about:

- renal implications of herbal remedies
- hepatic effects of herbal remedies
- herbs used for fever, influenza, and the common cold
- use of herbs for gastrointestinal disorders, diabetes mellitus, osteoarthritis/rheumatoid arthritis, asthma, oncology, and dermatology
- beneficial and adverse effects of herbs on hypertension and hyperlipidemia
- psychiatric considerations of herb use (e.g., in depression, anxiety)

In addition, you'll learn about herb use among substance abusers, the toxicologic considerations of herb use, and regulatory issues concerning herb use. Each chapter in Herbal Medicinals immerses you in cases that illustrate how the presented information can be used in the clinical setting. Summary “pearls” at the end of each chapter allow you quick and easy reference that saves you time. You'll turn to your copy of Herbal Medicinals time and again to find the information you need to meet your patients' many medicinal preferences and needs.

From reader reviews:

Adam Nelson:

The book Herbal Medicinals: A Clinician's Guide can give more knowledge and also the precise product information about everything you want. Why must we leave the good thing like a book Herbal Medicinals: A Clinician's Guide? A number of you have a different opinion about reserve. But one aim this book can give many details for us. It is absolutely appropriate. Right now, try to closer along with your book. Knowledge or facts that you take for that, you could give for each other; it is possible to share all of these. Book Herbal Medicinals: A Clinician's Guide has simple shape but the truth is know: it has great and massive function for you. You can look the enormous world by open and read a reserve. So it is very wonderful.

Suk Barry:

Nowadays reading books be a little more than want or need but also become a life style. This reading routine give you lot of advantages. The advantages you got of course the knowledge the actual information inside the book in which improve your knowledge and information. The data you get based on what kind of reserve you read, if you want drive more knowledge just go with education and learning books but if you want feel happy read one using theme for entertaining for example comic or novel. Often the Herbal Medicinals: A Clinician's Guide is kind of e-book which is giving the reader erratic experience.

Refugio Kennedy:

Your reading sixth sense will not betray anyone, why because this Herbal Medicinals: A Clinician's Guide book written by well-known writer we are excited for well how to make book which can be understand by anyone who all read the book. Written with good manner for you, leaking every ideas and creating skill only for eliminate your own personal hunger then you still doubt Herbal Medicinals: A Clinician's Guide as good book not just by the cover but also from the content. This is one guide that can break don't evaluate book by its deal with, so do you still needing an additional sixth sense to pick this specific!/? Oh come on your studying sixth sense already told you so why you have to listening to another sixth sense.

Alicia Cain:

A number of people said that they feel fed up when they reading a publication. They are directly felt that when they get a half areas of the book. You can choose often the book Herbal Medicinals: A Clinician's Guide to make your current reading is interesting. Your current skill of reading talent is developing when you just like reading. Try to choose simple book to make you enjoy to read it and mingle the opinion about book and studying especially. It is to be first opinion for you to like to wide open a book and go through it. Beside that the guide Herbal Medicinals: A Clinician's Guide can to be your friend when you're sense alone and confuse in doing what must you're doing of that time.
