Realidad del alma (Obras Maestras Del Pensamiento) (Spanish Edition) Carl Jung

Formado en la escuela freudiana, Carl Gustav Jung no tardo en encaminarse por terreno propio. Su mayor aportacion al psicoanalisis fue el concepto de inconsciente colectivo, y no menor merito le compete por haber sido el iniciador de la carecterologia de los tipos psicologicos que distingue a los introvertidos de los extravertidos. Pero el interes principal de Jung se centra en en problema de la realidad al que se refiere en esta obra, puesto que el alma intenta adaptarse a la realidad mediante la expansion de sus propias energias y la expresion simbolica de sus propios impulsos. El inconsciente colectivo seria el deposito de energia del cual se forma la conciencia individual y el conjunto de relaciones entre esta y la conciencia social, que designamos con el nombre de persona.
