Lake of Sins: Escape (Volume 1) L. S. O'Dea

Backbreaking work from dusk to dawn is just a typical day for sixteen year old Trinity, but that is about to change. Harvest is over which means that it's time for the less than perfect teens to be removed from camp. Trinity is okay with that. It's just another stage of a Producer's life, but she fears her new home will be like her old one unless she can figure out a way to make friends. She's different than the other Producers and even though she's hidden her fangs and claws her entire life, the others still sense her strangeness. She concocts a plan to sneak into the forest and discover where the teenagers are taken every year. Once she figures that out she can return home. The other kids will be dying to learn the secret which means that they will have to talk to her and she's sure that once they get to know her, they'll like her. Escaping into the forest is simple; she's done it before, but never at night. That is different. So is the feeling that she is being followed. Then she stumbles across a new creature. A large human-like river creature and that is only the beginning of her adventures in the forest. She is hunted, captured, and befriended but she still needs to discover the fate of her kind and return home before the week is up or her mother will be punished for her escape. Dive into the world of the Lake of Sins and view life from a different perspective. *"I haven't been this hooked on a story since The Hunger Games."* M. Cassidy *"What a great plot! This story swept me in and kept me entertained from beginning to end."* Peyton Siruski
