## **The Ssadm Version 4 Project Manager's Handbook (Mcgraw-Hill International Series in Software Engineering)** Martin J. Hammer

The book has been designed for practitioners and project managers of all levels of experience, with two specific purposes in mind: to provide a clear understanding of the method to assist practitioners in SSADM V4's use; and to provide the basic building blocks to demonstrate how it can and should be implemented to suit the profile of any particular project. Divided into three sections and providing a complete analysis of the SSADM V4 manuals, the book highlights the successes and failures of the latest version of SSADM and illustrates arguments with over 60 diagrams, that include complete Product Breakdown Structures with working and deliverable products, working and deliverable products, complete activity networks and task/product matrices.
