66 Days Adrift: A True Story of Disaster and Survival on the Open Sea William Butler

The lure of paradise was unmistakable, and Bill Butler was on a quest to find it with his wife Simonne - riding the Pacific currents on their sloop *Siboney*, with a world of possibilities ahead. But, 1200 miles from land, the alluring ocean showed its deadly side when, without warning, a pod of pilot whales attacked their sailboat, battering it until it sank beneath the waves.

The dazed couple was left drifting in midocean in a leaky six-foot raft meant for coastal waters, with only a few hastily grabbed provisions to sustain them. Simonne, who had never truly shared Bill's dream of circumnavigating the globe, blamed him bitterly for their desperate plight.

In this powerful account of their 66-day odyssey, Butler tells a gritty, harrowing tale of their battles against nature, despair, and their own demons. He reveals how he and Simonne found the strength to survive despite the ravages of hunger, storms, and sharks. Based on Butler's faithful log entries, *66 Days Adrift* is both a chilling cautionary tale for sailors with big ideas and an inspiring story of love, faith, and survival against long odds.
