Brent's World Randall Brooks

Not as much as a sequel as it is a follow-up, Randall Brooks has dared to go where most authors have never gone before: Inside the mind of the main character and bringing that character to life to the point the reader doesn't know if they're reading about a fictional character or not; and who exactly that character truly is. In *The Two Worlds of the Mind*, the character Brent Hart was first introduced, along with his close companion, George Waldo, inside a maze of dreams, thoughts, flights of fancy, daydreams, nightmares, and false realities. Now, author Randall Brooks has brought those characters back, interweaving Facebook status updates, deleted scenes from *The Two Worlds of the Mind*, interweaving back and forth between random thoughts and rants to create a world of confusion the reader will relish in. Just when you thought you had all the answers to the mysteries in *The Two Worlds of the Mind* figured out, Brooks decides to take you inside Brent's World, and opens up all sorts of new twists and turns.
