Multiple Choice Questions in Regional Anaesthesia

Rajesh Gupta, Dilip Patel

Multiple Choice Questions in Regional Anaesthesia Rajesh Gupta, Dilip Patel

Interest in regional anaesthesia has been flourishing for a number of reasons, including in particular the feasibility of ultrasound-guided peripheral nerve blocks. This trend is reflected in the growing popularity of fellowships in regional anaesthesia. The syllabus for such fellowship examinations is vast, and the current book aims to provide suitable guidance by presenting typical multiple choice questions with accompanying answers, in detail when necessary. The entire syllabus is covered in four sections that address basic principles and equipment, peripheral nerve blocks, central neuraxial blocks, and regional anaesthesia and acute pain. This book will be especially useful for those preparing for European Society of Regional Anaesthesia diploma examinations or for the regional anaesthesia component of FRCA examinations. It is also highly relevant to equivalent U.S. and Canadian examinations and will be helpful to all who require a self-assessment tool in the subject.
