Capitalismo e finanza: Il futuro tra rischio e fiducia (Saggi) (Italian Edition) Francesco Vella

Per comprendere pienamente la crisi finanziaria di fine decennio contano tanto le emozioni quanto i modelli matematici. Ma soprattutto occorre recepire un dato fondamentale: per ricostruire la fiducia e arginare il rischio dall'azzardo bisogna muoversi su un terreno molto più ampio della finanza. Ce lo mostra bene questo volume che narra, attingendo alle più diverse fonti - reports ufficiali, indagini empiriche, romanzi, biografie, interviste, blog -, le vicende che hanno condotto il mondo sull'orlo del collasso. Il nuovo ordine nel campo della finanza rappresenta di fatto un laboratorio di idee al crocevia fra diritto, economia e psicologia le cui proposte e soluzioni saranno utili non solo per la sfera degli affari e della finanza e per la sua democratizzazione, ma anche per la collettività intera e per il capitalismo di nuova generazione, che non potrà più essere "come prima".
